

Computer Lab

The YMCA Computer Lab is equipped with Internet accessible computers, a printer, thumb and floppy disc drives for saving your work, and the Microsoft Office products: Word and Excel. For members only, the computer lab offers a friendly environment for members to surf the net, do homework and check e-mail.

Our volunteers are available to help with any computer questions and to supervise should the need arise. All the computers have content filtering software to obstruct access to inappropriate web sites.
