

THE CASE FOR SUPPORT

KEY INITIATIVES

1

STRONG COMMUNITY

The Y is a place of community, where people of all ages and backgrounds can come together. Community spaces such as our Internet cafe offer members a place to work, have coffee with a friend, warm by the fire, and socialize. Furthering our goal of creating a safe space for everyone to thrive, be known, and belong.

2

HEALTH & WELLNESS

The Y provides a variety of group exercise classes to meet every age, level, schedule, and goal, while providing the support and camaraderie needed. Along with evidence-based programs that bridge the gap between clinical care and health promotion/disease prevention. Our programs help individuals build a healthy spirit, mind and body, which makes for a healthier community for us all.

3

YOUTH DEVELOPMENT

The Y is a leading childcare provider in our area. We were the first place to offer emergency childcare to essential workers and first responders at the beginning of 2020, and continue to provide childcare after school and during school breaks. Childcare is a major expense for families, and the Y seeks to make it affordable through donations, subsidies, and grants.
